PATENT

Application No.: 10/765,751 Filing Date: 01/27/2004 Examiner: Lorna M.Douyon

Art Unit: 1751

Attorney Docket No. H 04545 A US

II. <u>LISTING OF CLAIMS</u>

Claims 1-75. (canceled)

Claim 76. (previously presented) A process for the preparation of laundry detergent or cleaning product shaped bodies, comprising the steps of:

- (a) preparing of a first noncompressed part (a) which comprises an active substance;
- (b) preparing of a second noncompressed part (b) which comprises an active substance;
- (c) connecting of the two shaped body parts (a) and (b) by joining or intermeshing them to form the shaped body,

said noncompressed parts being formed under pressures of no more than 0.1 kN/cm², wherein (a) and (b) are not gelatinous at the same time, and wherein the noncompressed part (a) and the noncompressed part (b) each comprise a same active substance in different amounts.

- Claim 77. (original) The process as claimed in claim 76, wherein the connection between the parts (a) and (b) is aided by adhesion promoters.
- Claim 78. (original) The process as claimed in claim 77, wherein, in step (c), as adhesion promoters, melts of one or more substances having a melting range from 40°C to 75°C are applied to one or more surfaces of the part (a), after which part (b) is connected to the one or more surfaces of (a).
- Claim 79. (original) The process as claimed in claim 78, wherein the adhesion promoters comprise one or more substances selected from the group consisting of paraffin waxes, polyethylene glycols, polypropylene glycols, natural waxes, and fatty alcohols.
- Claim 80. (original) The process as claimed in claim 77, wherein the adhesion promoters comprise one or more concentrated salt solutions.

Application No.: 10/765,751
Filing Date: 01/27/2004
Examiner: Lorna M.Douyon

Art Unit: 1751 Attorney Docket No. H 04545 A US

Claim 81. (original) The process as claimed in claim 77, wherein the adhesion promoters comprise one or more solutions or suspensions of water-soluble or water-dispersible polymers.

Claims 82-86. canceled

- Claim 87. (previously presented) The process as claimed in claim 76, wherein the first noncompressed part (a) is formed in process step (a) by sintering.
- Claim 88. (previously presented) The process as claimed in claim 76, wherein the first noncompressed part (a) is formed in process step (a) by casting.
- Claim 89. (previously presented) The process as claimed in claim 76, wherein the first noncompressed part (a) is formed in process step (a) by solidification of solutions or by gelatinization.
- Claim 90. (previously presented) The process as claimed in claim 76, wherein the first noncompressed part (a) is formed in process step (a) by hardening.
- ^{*} Claim 91. (previously presented) The process as claimed in claim 76, wherein the noncompressed part (b) is formed in process step (b) by sintering.
 - Claim 92. (previously presented) The process as claimed in claim 76, wherein the noncompressed part (b) is formed in process step (b) by casting.
 - Claim 93. (previously presented) The process as claimed in claim 76, wherein the noncompressed part (b) is formed in process step (b) by solidification of solutions or by gelatinization.
 - Claim 94. (previously presented) The process as claimed in claim 76, wherein the noncompressed part (b) is formed in process step (b) by hardening.
